FLASHING IS REQUIRED
BY MOST BUILDING CODES

FLASHING (8 FT)

Flashing directs water away from the house and over the ledger board. This prevents moisture from seeping into the stud wall and rotting the house frame which supports the deck. Repairs are costly since the entire deck must be removed to insert missing flashing.

JOIST COVER (8 FT)

Protect your deck by guarding its foundation. When leaves and debris get trapped between your deck boards and joist, it causes deterioration. Plastic Joist Covers protect the joists where moisture collects to prevent rotting.

INSTALLS FASTER ⚡ LASTS LONGER!
