TurboClip™ is compatible with all major decking brands including Armadillo, Trex, TimberTech, MoistureShield and Fiberon.

— TESTIMONIALS

Amazon Customer

Worked great with the Trex decking I bought. It does save time and makes it easy to use being all connected together.

Mike's Home Service, Mankato, MN

A great universal hidden fastener that saves time and is accurate.

Timothy S.

Makes installing decking easy - Using these fasteners and the starter clips made the installation of my deck easy and looks great. These clips provide for the proper spacing and securely fasten the deck boards to the framework.

Stephen W.

I'm a homeowner, not a contractor. I learned two very important lessons while building my own deck. First, I'll never build another deck and second, if I do build another deck, I will for sure use TurboClips again. I was afraid they were going to be "as seen on TV" gimmicky but they really weren't! The speed and accuracy of a consistent gap with collated clips was dummy proof. Having the clips pre-loaded with a stainless screw saved me countless time. Thanks again for a great product!

3/16" NARROW GAP

CREATES A 3/16" GAP BETWEEN DECK BOARDS.

CODE	PRODUCT	APPROX. COVERAGE
89292	192 Count 3/16" Narrow Gap Box (12 Sticks, 192 Clips)	100 SQ FT
89280	800 Count 3/16" Narrow Gap Box (50 Sticks, 800 Clips)	425 SQ FT

LIMITED LIFETIME WARRANTY

TurboClip™ strives to make products that are free from defects and do not rust or corrode. We guarantee the performance of TurboClip™ screws and clips for composite decking for 25 years when installed according to the recommended installation instructions. You can trust TurboClip™ because of the way we engineer, manufacture, and test our products.

FASTER, EASIER, MORE EFFICIENT

TurboClip™ was created with one goal in mind: faster, easier, and more efficient.

Our fasteners come in "sticks" of 16 so you aren't constantly reaching down for another fastener.

This allows you to complete projects more quickly, increasing your income potential. Best part is our fasteners are compatible with all major decking brands like Armadillo, Trex, TimberTech, MoistureShield and Fiberon.

F.A.Q.
