FULLY ENCAPSULATED

Every Armadillo[®] composite deck board is fully encapsulated, providing superior water protection. Unlike some competitors who leave the bottom of their boards unsealed to cut costs, we prioritize the durability and longevity of your deck, ensuring no detail is overlooked.

COMMITMENT TO SUSTAINABILITY

We are honored to have received recognition from the United Nations Environmental Programme (UNEP) Award, the leading global authority on environmental sustainability. This accolade highlights our commitment to eco-friendly practices, innovation, and responsible resource stewardship for a better future.

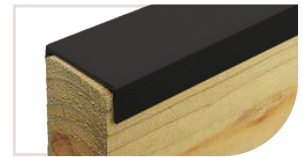

FLASHING AND JOIST COVERS

Flashing directs water away from the house and over the ledger board to prevent moisture from seeping into the stud wall and rotting your deck supports. Joist Covers protect the substructure of your deck where moisture collects to prevent rotting.
